

## **Lead Software Engineer – Full Stack**

### Company Summary

Eumelia is a tech startup founded to enhance a business's sustainability and eco practices. We aim to reshape the world around us by creating technology to do so. Our app currently works on connecting businesses to have their waste coffee collected and turned into biofuel. While our desktop platform allows businesses to track & reduce emissions across their estate.

### Summary of role/why hiring

We are looking for a pivotal role in the development of our software solutions. Growing our recurring rates 1100% year on year means we are seeking someone who can work in a fast-paced startup environment.

### Responsibilities

- Rebuilding our app from a code base using a framework that will work and run with both iOS and Android devices using the same code.
- Support clients with any technological issues as we grow and adapting features inline with client feedback.

### Requirements (Must have)

- Ability to build an app and publish using Xamarin, React Native, Flutter or similar as flexible tech stack.
- Experience with Xcode and Android Studio for app builds and publishing to the stores.
- Knowledge of data retrieval and sever side processing.
- Knowledge of AWS and other cloud platforms.
- Maintain the already comprehensive technical documentation.

### Requirements (preferred)

- Minimum 3-5 years experience in a similar role.
- Bachelor's degree in computer science or similar. Not completely necessary but preferred.
- Excellent problem solving and debugging skills.

### Benefits

- £40,000-£70,000 salary depending on experience.
- Pension scheme.
- Remote and office working available.

### How to apply

If you're passionate about technology, love working in a collaborative environment, and have the skills and experience to lead a business forward, we want to hear from you. Please submit your resume, a cover letter outlining your qualifications and experience, and any relevant work samples to [paultyrer@eumelia.co.uk](mailto:paultyrer@eumelia.co.uk).
